More sentimental than any other sign. You probably have a secret closet or a hidden treasure chest filled with mementos pictures, notes, letters, and other keepsakes from your past.

In your world, love, sex and romance co-exist happily. They say more romance novels, and romantic movies are bought and watched by Sensuous Cancer women than any other sign. You don't just read these sagas - you are practically drugged by the words. The stories fill you, surround you, caress you and sweep you away from your everyday world

*Soft, persuasive, alluring & eternally feminine.*

Your passion waits like sleeping beauty for the right kiss, right words, the right man, and the right moment. Once your passions are aroused they take you on giant rollercoaster ride through a landscape rich with emotions, beauty and feelings.

**What gives you pleasure?**

You like lots of cozy nights at home curled up in each others arms. You like to take your time and go slow. Tender loving preparations, deep loving pleasures with lots of pauses, twists and turns.

## How to seduce you?

With wild kisses and tender caresses. The perfectly placed kiss at the base of your neck has the power to melt your resistance and set off a chain of ecstasy. Tell your lover to place a thousand warm, wet, feathered kisses up and down the center of your back and along the ridges of your spine, and watch as it sends a million volts of electric currents of pleasure racing across the surface of your skin and your entire body.

However if your lover wants to possess you body & soul...He must be courageous enough to reveal himself to you, open his heart, share his deepest desires and fears and bare his soul... all in a romantic setting.

*Moonlight affects you like an aphrodisiac.*

Scents heighten your emotions. They take you to the heights of emotional bliss. And since most Sensuous Cancers come alive in soft lights, it's a good idea to surround yourself with scented candles and perfume the air with bewitching scents of ginger, cinnamon, roses, vanilla, jasmine and lavender.

### Your recommended Passion Product:

Silky Sheets. Why? Because the combination of the feel of silk and an intoxicating scent will help inspire your mood for romance.

**What to do:** Spray your sheets a few minutes before bed. Then slip between the sheets naked. You'll love the feeling, the decadence and the romance of this simple yet amazing experience. Have fun trying a different scent each night and see how it instantly changes your mood and the atmosphere of your bedroom.

## Sex Secrets of the Cancer man

Sexiest Taurus Celebrity: Vin Diesel

### Who is the sensuous Cancer man?

He is your dream lover. Wistfully gazing into your eyes. So intuitive, you'll wonder if he's reading your mind. A smile that reminds you of the first boy you ever kissed. He's got a spirit of adventure, plus a great sense of humor. And when you're the one he's in love with, you can expect his love to last for your entire lifetime.

His faithfulness is one of his perfections. Another is his incredibly deep parenting instincts. You see that handsome well dressed, guy playing with his twin daughters at the playground? He's a Sensuous Cancer man who's given up a lucrative career on Wall Street to be a stay-at-home dad.

But don't mistake his gentleness as a sign of weakness...

He's all male (totally and utterly). He can be like a hammer in a velvet glove. He flirts and fantasizes just like any other red-blooded male – he's just smarter and he does it when you are not looking.

### How to attract & keep a sensual cancer man

If you want to capture his heart. Show him that you are loyal, loving and a great listener. He wants to be soothed, lulled, understood, encouraged, and most importantly... you have to be strong enough to survive his emotional storms.

He's a man of many moods...

They shift, change, vary and swing between extremes like a pendulum. Today he might be moody and poetic tomorrow he be can logical and emotionally unavailable. Tonight he might make love to you like you were a rare precious flower, and tomorrow he could ambush you in the kitchen, throw you to the floor and ravish you like a man driven wild by a thousand days of abstinence.

What he's looking for:

A life of domestic bliss with a domestic goddess. He wants more than a sexual partner. He wants a woman he can create a beautiful home with. He wants a life where family, love, and romance all find harmony under the same roof.

### How to lose him in ten seconds:

Be pushy. Be aggressive. Be demanding – and most off all - overreact to his moody moments, because above all else, he truly wants his life to be filled with peace and harmony.

### His secret desire...

Secretly he longs to be romanced. He wants to have flowers sent, chocolate covered morsels baked, romantic poems written, sweet notes left on the refrigerator telling him that he is the TRUE hero of your life.

### How to seduce your sensual Cancer man

Begin with tender loving romance that goes on all night long. He loves the feeling of your hands and fingers on his skin. Let your hands roam all over his body, brush gently along his cheeks, nibble, nip, bite, and lightly kiss him all over his face.

And here's another big secret...

He's one of the few men who truly experiences 'after glow'. If ever you want to find out what he's really thinking and feeling. Wait until after making love. This is the time that he will open up his deepest feelings and share his inner most desires.

Here's the #1 secret to blowing his mind – every time:

Don't hold back. Yes it's true that many men can be easily frightened away by the intensity of a woman's emotions – but not this guy -he feeds on them. So let loose. Let your passion shine. Surrender to the moment. Go up in flames in front of him. Don't be ashamed of your feelings. Let him see. Make love to him like he was the last man on earth.
