

# Passport to Adventure: *Exploring the Unknown*

Experience your lover in a new way no matter where you are. It can be as easy as turning your bedroom into a sexy boudoir with a Parisian theme, camping out (just the two of you) in your backyard under the stars, or as easy as checking into a hotel for the night. A sensual enhancement, such as a toy or flavored lotions, is another option to help you spice up your love life and capture vacation sex all year long. It's also the perfect time to explore your curiosities with more adventurous sex toys. Having an open mind and good communication is key in any aspect of a relationship. If you have both of these elements already, you are limited only by your imagination.

Sexual enhancements are not limited to only physical pleasure. They can be used to explore intimacy, develop trust, learn about each others' bodies, your likes and dislikes. This is one of the reasons why Passion Parties carries a wide range of products from romance to adventure. No matter who you are, no matter your level of experience, there's something for everyone.

## Are you...

### Curious about cuffs?

One way to increase intimacy in the bedroom is the use of light, non-threatening restraints. Furry cuffs and a soft blindfold like those included in the Private Pleasures Set encourage respect and trust of emotional and sensual needs and boundaries.

**Private Pleasures Set**  
Item 3056

**Tip:** Create a code word either one of you can use if you start to feel uncomfortable. You or your partner will immediately know to *slow down, change course or stop.*

### Want to add seduction?

No fancy, athletic or acrobatic moves required. The keyword in this activity is "tease" so take your time, make lots of eye contact and remember to do everything in slow motion. If you need inspiration, the Striptease for Real Women DVD covers essential dance moves and the graceful removal of clothing.

**Gold Dust**  
Item 6522

**Tip:** Dust your body with Gold Dust to give your skin an iridescent, and irresistible, shine.

### Anxious about anal play?

The Disco Mini Tongue featured in the Passport to Passion brochure fits the bill perfectly for beginning adventurous play. Recipients often feel most comfortable when they control the speed, depth, and duration of insertion. Before you explore or even discuss anal play with your partner, its important for you to know the six important keys:

**Disco Mini Tongue**  
Item 1117

1. Lots of lubrication
2. Penetration is optional
3. Relaxation is the magic key
4. Slow is the action word
5. Pain means stop
6. Safety makes it sexy

Lubricants, like long lasting Revelation, are a must have for this play time.

**Tip:** Some anal lubricants contain anesthetic (lidocaine or benzocaine) to help reduce discomfort. Be careful with these products. Discomfort is the body's way of saying that something is wrong. Use them sparingly.
